RCRA Permit Modification

Request 32

The U.S. Department of Energy's (DOE) Rocky Flats Field Office (RFFO) is requesting a modification to the Rocky Flats Resource Conservation and Recovery Act (RCRA) Part B Permit.

This modification addresses storage of hazardous and low-level mixed waste at the 904 Pad and Tent number 7 (Unit 15B). The 904 Pad consists of four tent structures located on an asphalt pad. Tent number 7 is located directly west of the 904 Pad also on an asphalt pad. Unit 15B will be storing mostly pondcrete, however, small amounts of saltcrete and miscellaneous waste will also be stored. The storage capacity for Unit 15B will be 15,981 cubic yards.

This is a class 3 modification request. Class 3 modifications address changes that substantially alter a facility or its operations.

Public Comment Period

A 60-day public comment period on this permit modification request extends from June 2, 1995 through July 31, 1995.

During the comment period, written comments may be sent to Lisa Weers or Chris Gilbreath, Hazardous Waste Facilities, Hazardous Materials and Waste Management Division, Colorado Department of Public Health and Environment, 4300 Cherry Creek Drive South, Denver, Colorado 80222-1530, or call (303) 692-3300. The permittee's compliance history during the life of the permit being modified is available at the Colorado Department of Public Health and Environment's Information Center.

Public Meeting

Information on this permit modification request will be presented at an upcoming public information meeting.
